

APTECH AT NUB — EMPOWERING STUDENTS WITH ESSENTIAL EMPLOYABILITY SKILLS

NUB is committed to secure its student's future by empowering them with the necessary knowledge and employability skills needed to introduce a generation of leaders ready for employment immediately upon graduation. Consequently, in 2017-2018, **NUB** collaborated with Aptech Academy of Learning and Training Ltd. in India, offering internationally accredited English and IT courses as university requirements at all faculties. Courses are compulsory for students who start their first academic year at **NUB** and are taught over three years of study, within three academic years, across six academic semesters.

ELECTRONIC LEARNING SUPPORT (ELS):

NUB designed its very own online learning system named the Electronic Learning Support (ELS); an application for online teaching, learning, community building, and knowledge sharing. Our ELS system is one of **NUB's** vital educational pillars which not only sets it at the forefront of Egyptian universities, but also provides easy access for students through **NUB's** website and is designed to:

- Facilitates learning
- Enables students to interact with their tutors and peers on a daily basis
- Increases productivity and efficiency of educational learning
- Helps students in solving the most critical challenges in today's ever-changing environment while increasing their chances to succeed.

THE GATE TO YOUR FUTURE

WHY JOIN ORAL AND DENTAL MEDICINE?

By joining **NUB's** Faculty of Oral and Dental Medicine, you'll benefit from a wide array of privileges that'll enhance your academic journey, as well as your personal growth through

- Quality curricula that reflect the Vienna School of Dentistry - one of the oldest and leading educational institutions worldwide
- Direct access to the competing knowledge of Vienna faculty members in teaching methods and medical practices
- The College of Dentistry is currently in the final stage of obtaining the necessary approval to start a graduate program, giving **NUB** students the opportunity to complete their graduate studies immediately after graduation
- International postgraduate education at the Vienna School of Dentistry will soon be available in some dental programs for **NUB** graduates
- Digital dentistry is now a top priority at **NUB**, to give students access to accurate online courses with a focus on laboratory digitization in the coming years to reduce patient contact time and ensure the utmost results.

NAHDA UNIVERSITY ANIMAL HOUSE

The Animal House is a special unit that belongs to **NUB** and is supervised by the Faculty of Pharmacy to provide various research services to students, as well as researchers from inside and outside the university by

- Providing experimental animals necessary to conduct scientific research free of charge
- Breeding experimental animals such as rats and mice
- Offering suitable lab space for researchers from various Egyptian universities to carry out their scientific research
- Providing suitable laboratory partitions, equipped with advanced instruments and an ideal environment to finish research easily and conveniently
- Treatment and surgery labs for samples collection after conducting experiments
- Improving and introducing new scientific techniques that are always up to date to ensure having a competitive advantage.

STUDENT SUMMER TRAINING

Students receive mid-year and summer internships at leading industry companies, universities, and medical institutions both at home and abroad, linked to their specialties. This should contribute to the employment of students in these institutions upon graduation.

NAHDA CONTINUOUS EDUCATION CENTER (NCEC)

NUB Continuous Education Center (**NCEC**) is a chain that connects the university with society. The center allows the largest possible number of community members to benefit from the expertise, experiences and resources available in **NUB** by offering programs that develop the required skills and expertise while providing a supportive and encouraging environment, in theory and in practice.

In addition, the center is tasked with improving teaching, learning and training methods to develop the capabilities of all parties involved in the educational process, leveraging academic expertise by offering advanced programs that develop the abilities and skills of **NUB** faculty and staff. The Center also offers advanced training programs for academic and administrative leaders to improve their leadership performance and decision-making abilities, as well as their intellectual and research skills.

NCEC offers a wide range of training programs and integrates with courses offered by Aptech, Huawei, Cisco and Oracle academies.
